

KEY FEATURES

- One-piece design is totally water-resistant, damage-resistant and anti-concealment
- With and without bed storage options
- Straight side allows the bed to be fitted flush against a wall
- Compatible with coved flooring (please specify at point of order)
- 100% waterproof construction with hygienic wipe-clean surface
- Polyethylene material is 100% recyclable
- Strength and stability tested for severe contract use

MATERIAL/FABRICATION

The Ryno Wall Bed is compatible with covered flooring and can be modified to be securely fitted to prevent concealment opportunities and reduce ligature risks. Whilst the flared side provides improved patient mobility and access to caregivers.

The Ryno Wall Bed has no foam filling and is designed using a rotationally molded, durable polyethylene, one-piece construction, which provides excellent strength and stability. Flamed, textured finish further strengthens the fire-retardant, water-resistant, UV-stabilized shell. Item is fully recyclable as polyethylene can be melted down to create a whole new product.

TEST STANDARDS

- EN 1725:1998 (corresponding to a 36 stone user)
- Ryno material UL94 Fire test
- 1100lb Static Load testing to the center of the base

OPTIONS

INSTALLATION/FITTING

Additional weighting can be carried out prior to delivery. Please advise if floor fixing is required when ordering as fixed items are made differently. All products must be fitted carefully following Pineapple's product instructions (where available). If not, any guarantee is at risk of becoming null and void

MAINTENANCE

Avoid using abrasive materials or cleaning agents, solvents, steam cleaning or jet washing. Use bleach and chlorine disinfectant with caution and avoid placing in close proximity to sources of heat. Read more here <https://us.pineapplecontracts.com/upholstery/care-guidance/>

WARRANTY

Lifetime guarantee against all manufacturing faults

DISCLAIMER

Extreme temperature changes (e.g. a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape .

Due to the nature of the rotational molding process, flat surfaces on Ryno® products may feature slight undulations which do not detract from the product's strength or durability.
